

SMIITY

SMart Interactive cITY

1. WHAT IS SMIITY?

> SMart Interactive cITY aims to provide **local information to citizens and tourists.**

> With SMIITY, you can receive notifications about a monument, a piece of art or some historical information if you are in a place where relevant events occurred.

Have you noticed that many times you pass by places that are **full of history** and you don't even know it?

News

Monuments

Events

Restaurants

Museums

Among others

Know what goes on in your city or if you are in town only for a visit, you can have access to information about what exists around you in an interactive way

2.

WHAT IS A BEACON?

A small emitter that enables interactivity with citizens and tourists of any city, festival or place.

- Small emitter
- Non intrusive
- Discrete
- Out of sight
- Does not visually interfere with the historical heritage

With SMILITY, you can receive notifications that to the **iBeacon technology.**

ACTIVELY

participate in the dissemination of information
in your town, business or event.
